Treasurer's report approved.

Minutes of previous meetings approved.

**New Business:**

Comment was made by JM that the new water spigot is being monitored by game camera. JM emailed and asked why camera was there and who authorized its useage. She commented that her door is always open and would not comment.

Also, new tenant moving in that is commercial and when questioned, Paula would not answer as to the specifics of energy usage. Comment was that questions are not answered from the city or airport manager. She comments that it is income and would not disclose the particulars. It was stated that the cameras monitor water usage and motorcycle riding.

I commented about the airport being revenue neutral and all other departments not being the same. I commented that the airport has potential for enormous income generation. It was mentioned that we need to go to Transportation meeting and City Hall meetings and express our dissatisfaction about issues. Discussed water line encroachment across airport property with no compensation and with no FAA approval. Discussed the bathroom issue and that they were not requested and consumed @ 1.6M in costs and those funds could have been used for all of the needed and requested projects which would have made Tracy Airport a much more user friendly and desirable airport.

Talked briefly about the company taking over Skyview Aviation and the owners and plans.
